VISYON

Values, Ideas, and Stories from Youth ON stage

Welcome to our first newsletter about VISYON (Values, Ideas, and Stories from Youth ON stage), an Erasmus+ KA3, which unites organizations from all over Europe: Greece (the leading partner), Bulgaria, Italy, Malta, the Netherlands, Romania, Slovakia, and Spain. The Project's implementation started on the first of March 2023 and is expected to be completed by the 28th of February 2025.

The project duration is from 01/03/2023 to 28/02/2025.

OUR PROGRESS SO FAR

We have implemented several workshops for script writing in all partner countries! The scripts for the short movies, dedicated to the 11 European Youth Goals are ready and available!

17 - 23 February was a magical period for us! VISYON Youth Mobility was held in Athens, Greece, where participants from all partner countries had the chance to meet, present the work done on the local level, and create 2 more short movie scripts! And this is not all! During this exciting event, 2 scripts were realized by the professional movie Agency from Italy - Tanino films! All participants were involved in the process, and had the great chance to experience what it means to be on the real movie set!

WHAT'S CURRENTLY UNDERWAY?

Right after the mobility, Greek team of VISYON remain in Action. With the help of Tanino films, the short movie script for the EU Youth Goal #8 - Quality Education for All was produced. The Mobility marks a new chapter of the project, where all created scripts by local groups of VISYONers will get the shape of the short movies!

WHAT LIES AHEAD

During the upcoming months, Tanino Films will travel around Europe to meet VISYON local groups and bring their scripts into screens. It is foreseen, that the short movies will be ready and published by the end of August 2024!

ABOUT THE PROJECT

VISYON is an inspiring European Youth Together project with the aim of empowering young people across Europe. By raising awareness about current EU youth policies and encouraging active youth engagement, VISYON aspires to equip participants with vital skills such as critical thinking, analytical capacity, and effective communication. It has an innovative approach, which allows young people to share their opinions and recommendations for EU Youth Policies through the creation of short films. This creative approach not only provides a powerful means of expression but also facilitates dialogue and drives positive change.
